## PPO 2023 S.P. 22/23

### Support for higher education within the regional university

With Decree No. 17895/GRFVG of April 19, 2023, the Friuli Venezia Giulia Region published the Notice regarding the submission of operations for Specific Program No. 22/23, which aims to support higher education within the regional university system.

#### Line A – PhD Programmes

Specific Programme 22/23, through the funding of doctoral scholarships, contributes to the achievement of the objectives of the Sustainable Smart Specialisation Strategy (S4). It supports the development or strengthening of integration with the regional production system and/or research organisations, through coordination and collaboration mechanisms with regional enterprises or research bodies, or by leveraging the potential for technology transfer of processes, products, applications, or, more broadly, research outcomes.

- **40th cycle**
- Unique Project Code (CUP) **J93C23001490008**
- Project **2024/1543/12**

#### Doctoral Programme in **Personalized Medicine and Innovative Therapies**

##### **“Precision medicine and personalized therapies for ASUGI”**

The project’s content aligns with the clinical research and experimental activities outlined in the Mission of the Institution. These activities are aimed at translating advances in knowledge into practical applications for healthcare, with the goal of increasing effectiveness in prevention, diagnostics, therapeutic or rehabilitative treatments, as well as in the organization and management of healthcare services.

These activities are consistent with the objectives of the Sustainable Smart Specialisation Strategy (S4), particularly within the specialisation area: Health, Quality of Life, Agri-food, and Bioeconomy. Research activities will be carried out at the Institution or in collaborating facilities, within the framework of dedicated agreements or conventions. In particular, collaborations will involve research institutes and companies operating at the regional level.

The research outputs may lead not only to scientific publications but also to the development of products or applications relevant to the regional entrepreneurial ecosystem.
