HEREBY DECLARE

Fully aware that any person who makes materially false statements of fact shall be subject to prosecution under the Italian Criminal Code and other applicable legislation, and shall lose their benefits (pursuant to articles 38, 46 and 47 of D.P.R. 445 of 28.12.2000).

that I accept to be awarded the PhD scholarship which will be granted every year until completion of attendance of the Doctoral Programme subject to positive assessment by the Doctoral Board on the progress of my research and study project.

For this purpose, I declare that I have read and understood the provisions set out in the [University Regulation](#) governing doctoral programmes, with particular reference to the rights and obligations of holders of doctoral scholarships (Articles 27 and 29), and acknowledge that scholarship payments are made by bank transfer to the **bank account (in Italy or another country within the SEPA area)** that I have indicated in the Esse3 portal.

I hereby state that I have not hitherto benefited, in whole or in part, from any other doctoral scholarships.

I also acknowledge and agree that:

- I must comply with the principles and conditions as set out in the agreement with the company funding the scholarship, where applicable; in the event that the scholarship is paid with with European funds, I also acknowledge that the EU support cannot cover costs for the same activity (no double funding is permitted);
- I cannot benefit from research contracts (as per Law no. 79/2022) nor other scholarships during my doctorate, except for those granted by national or foreign institutions to cover study and research abroad complementing my doctoral activity;
- I may decline my scholarship, even temporarily, at a later stage, prior approval by the Doctoral Board, should I acquire another form of financial support equivalent to the scholarship;
- When declining the scholarship, and whenever the eligibility requirements for receiving the scholarship are no longer met, I shall promptly inform in writing the Doctoral Office in order to allow for the interruption of the scholarship;
- The scholarship can be combined with work activity, either in employment or self-employment, providing that my annual income from work is not higher than the income limit as set out annually by the Board of Administration . In the A.Y. 2026/2027 the mentioned limit is as much as €15,000 (before tax and after social security contributions) and the applicable tax year is 2027. Any income from occasional work and from tutoring or assistant teaching activity does not contribute to reaching the income limit;
- In the event that my income exceeds the mentioned limit, I must inform dottorati@amm.units.it every year by 31 May 2028 as for the first year, by 31 May 2029 as for the second year, and by the thesis defence date as for my last year. In such an event, I will have to pay back the relevant scholarship installments, pertaining to the tax year in which the income was exceeded;
- Scholarships can be increased by 50% only to cover uninterrupted stay periods abroad of at least 30 days;
- PhD scholarships are subject to deductions of national insurance contributions and I must register online with the National Institute for Social Security (INPS) under a separate pension scheme ([Gestione Separata INPS](#));
- If the scholarship is funded by a company, I shall assign to the University the right to any inventions derived from research conducted at the company, with no prejudice to my moral rights. In return, I – as inventor - shall have the right to compensation, as defined under the agreement with the company.
